

How can  
standards be  
translated  
into practice

**WORLD BANK GROUP**

F. Berthe, N. Rupasinghe, J. Wadsworth, A. Thiebaud & E. Baris

A large audience is seated in a conference hall, viewed from behind. Many attendees are holding up white signs with country names written on them. In the foreground, a man in a dark suit is holding up a sign that says "NAMIBIE". Other visible signs include "LITHUANIA", "ISRAEL", "MOZAMBIQUE", "LIECHTENSTEIN", "PHILIPPINES", and "PHILIPPINE". In the background, a stage is visible with a podium and blue curtains. A large, semi-transparent grey circle is overlaid on the right side of the image, containing the text "How can standards be translated into practice".

How can  
standards be  
translated  
into practice

AMR and our  
global  
development  
goals are inter  
connected

The way we think antimicrobials the way we use them and their externalities

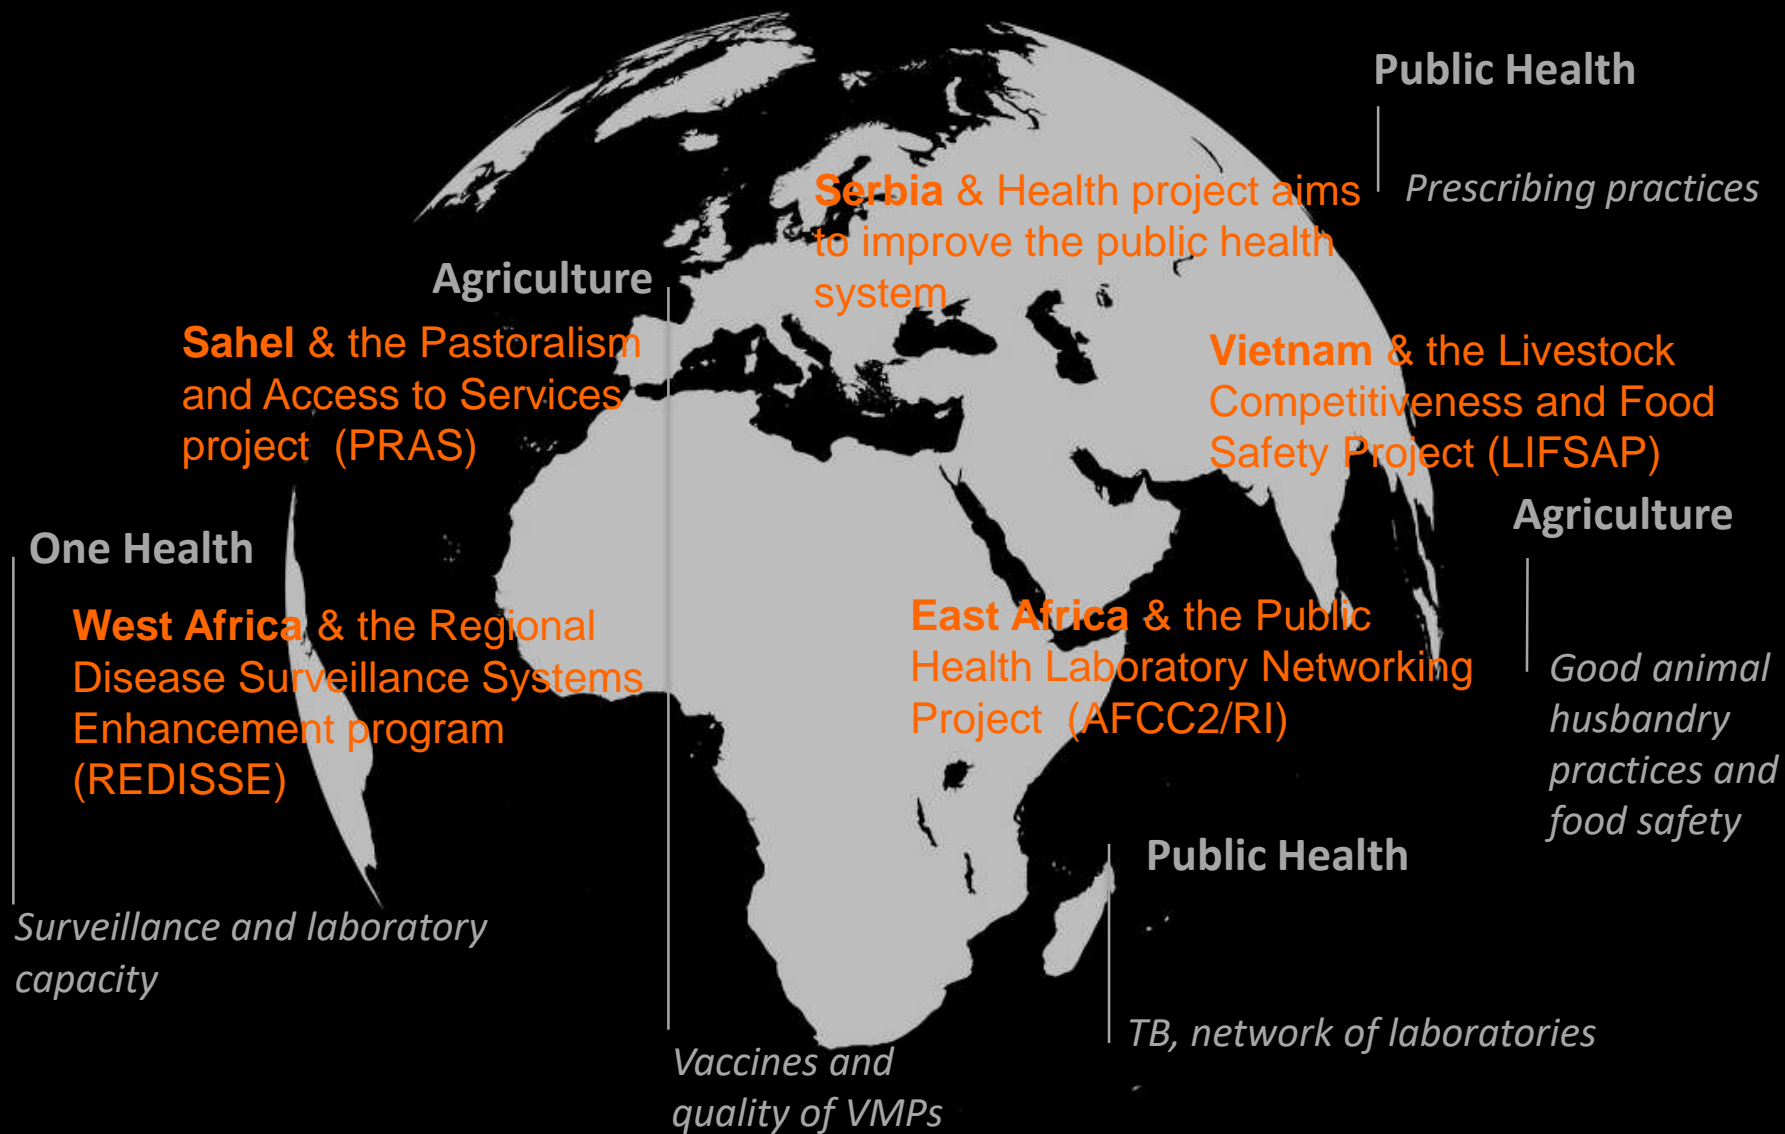

A photograph of an elderly woman with white hair, wearing a purple and yellow patterned sari, carrying a large purple water pot. She is standing in a rural setting with other people in the background. A semi-transparent circular overlay on the right side of the image contains white text.

The use of antimicrobials is a driver to the rise of resistance, but context matters

A close-up photograph of a person's hands. The person is wearing a green long-sleeved shirt. Their right hand is holding a pink plastic spoon, positioned over a white plastic cup. In the background, a blister pack containing several purple and white capsules is visible on a wooden surface. A semi-transparent grey circle is overlaid on the right side of the image, containing white text.

Blending of  
AMR specific  
and AMR  
sensitive  
interventions  
to address the  
issue

# An AMR lens on development finance

Thank you very much for your attention
