OIE STANDARDS aim to improve animal health and welfare as well as veterinary public health worldwide, for both terrestrial and aquatic animals.

OIE delegates play a key role in ensuring implementation through promoting:

- Monitoring progress
- Evaluating challenges
- The standard-setting process
- OIE capacity-building activities
- Informal mediation among OIE Members on trade issues
- Participation in OIE standard-setting procedures
- Engagement • Inclusiveness

SUCCESS FACTORS

Veterinary Services
Good governance

Veterinary Legislation
Good regulatory practices
Harmonisation

Official disease status
Transparency

Public-Private Partnerships

To address challenges faced by OIE members, the OIE Observatory will provide a better understanding of the level of implementation by countries, contributing to the on-going improvement.

OIE INTERNATIONAL STANDARDS are:

- Science-based
- Adopted by all 181 OIE Members
- Recognised as reference by the World Trade Organization (WTO)

OIE STANDARDS aim to improve animal health and welfare as well as veterinary public health worldwide.

Be part of the Observatory project!

Complete the questionnaire: Technical Item I
88th OIE General Session
“Implementation of OIE Standards by Members, State of play and specific capacity-building needs”
