

RESOLUTION No. XXXII

Implications of private standards in international trade of animals and animal products

CONSIDERING

That the World Trade Organization, under the Agreement on the Application of Sanitary and Phytosanitary Measures, formally recognises the OIE as the reference organisation responsible for establishing international standards relating to animal diseases, including zoonotic diseases

That the OIEs current 172 Members and the international community at large recognise the OIE as the organisation responsible for setting standards for animal disease surveillance and animal health and welfare, with the objective of providing a scientific basis for safe international trade in animals and animal products and improving animal health and welfare worldwide,

That the OIE International Committee has adopted international standards for animal welfare during transport, slaughter and killing for sanitary purposes, and the OIE is developing new standards in the animal welfare domain, and

NOTING

That commercial standards, established by private companies without direct involvement of governments, are increasingly coming into play in international trade, and are of great concern for a majority of OIE Members

THE COMMITTEE

DECIDES

1. To reaffirm the standards published by the OIE in the field of animal health including zoonoses, as the global official sanitary guarantees for preventing the risks associated with international trade in animals and animal products, while avoiding unjustified sanitary barriers to trade, and promoting the prevention and control of animal diseases worldwide.
2. To reaffirm the standards published by the OIE in the field of animal welfare as the global reference standard for OIE Members.
3. To ask the Director General to work with relevant public and private international organisations with the objective that concerns of Members are taken into consideration and that private standards, where used, are consistent with and do not conflict with those of the OIE.
4. To ask the Director General to support Members in taking whatever steps are available to them to ensure that private animal health and animal welfare standards, where used, are consistent with and do not conflict with those of the OIE.
5. To ask the Director General to continue with the relevant activities to further strengthen the OIE 's work in standard setting for animal health, including zoonotic

diseases, and animal welfare and to continue to implement and reinforce capacity building programmes to assist Members in implementing OIE standards. Capacity building includes communication for Veterinary Services in order to convince consumers on the efficiency of OIE standards to protect health and animal welfare.

(Adopted by the International Committee of the OIE on 29 May 2008)
