OIE Laboratory Twinning

Projects completed to date (23):

- African horse sickness and Bluetongue: UK with Morocco
- African swine fever: Spain with Russia
- Avian influenza and Newcastle disease: Italy with Cuba
- Avian influenza and Newcastle disease: Italy with Russia
- Avian influenza and Newcastle disease: USA with Brazil
- Avian influenza and Newcastle disease: Australia with Malaysia
- Avian influenza and Newcastle disease: Germany with Egypt
- Avian influenza and Newcastle disease: USA with Chile
- Brucellosis: Italy with Eritrea
- Brucellosis: UK with Turkey
- Brucellosis: France with Thailand
- Classical swine fever: Germany with Cuba
- Classical swine fever and rabies: UK with China
- Contagious Bovine Pleuropneumonia (CBPP): Italy with Botswana
- CBPP and Epidemiology: Italy with Cuba
- Epidemiology: USA with China
- Equine piroplasmosis: Japan with India
- Food safety: Italy with Namibia
- Food safety: Italy with Tunisia
- Improved diagnostic capacity: UK with Uganda
- Infectious salmon anaemia: Canada with Chile
- Rabies: South Africa with Nigeria
- Veterinary Medicinal Products: France with Senegal

Projects underway (33):

- African swine fever: Spain with Kenya
- African Trypanosomosis: France with Burkina Faso
- Animal welfare: Australia with Malaysia
- Avian influenza and Newcastle disease: Canada with Colombia
- Avian influenza and Newcastle disease: Italy with Iran*
- Avian influenza and Newcastle disease: UK with Botswana
- Avian influenza and Newcastle disease: UK with South Africa
- Bluetongue: Italy with Tunisia
- Brucellosis: Germany with United Arab Emirates*
- Brucellosis: UK with Sudan
- Brucellosis and mycoplasma: UK with Afghanistan
- Brucellosis: Italy with Zimbabwe
- Brucellosis: Italy - USA with Kazakhstan
- Emerging infectious diseases: Australia with Thailand
- Equine influenza: Ireland with China
- Equine influenza: UK with India
- Foot and mouth disease: Argentina with Paraguay
- Foot and mouth disease: Belgium with Nigeria
- Geographic information system for disease surveillance: Italy with China
- Glanders: Germany with India
- Infectious bursal disease: France with China
- Infectious haematopoietic necrosis: USA with China
- Infectious salmon anaemia: Norway with Brazil*
- Koi Herpesvirus: Japan with Indonesia
- Leptospirosis: UK with India
- Ovine chlamydiosis: Switzerland with Namibia
- Peste des petits ruminants: France with Morocco
- Rabies: Germany with Turkey
- Salmonellosis: Italy with Vietnam
- Shrimp disease (crustacean): USA with Indonesia
- Surveillance linkages in African swine fever and FMD

* funded by recipient country/other donor
• Trichinella: Italy with Tanzania
• West Nile virus: Italy with Turkey

Projects approved (13):

• Bovine spongiform encephalopathy: Canada with Cuba
• Bee diseases: France with Yemen
• CBPP: Italy with Turkey
• Equine infectious anaemia: USA with Argentina
• Foot and mouth disease: Brazil with Panama
• Foot and mouth disease: UK with Ethiopia
• Peste des petits ruminants: UK with Tanzania
• Rabies/Transmissible spongiform encephalopathies: Canada with Peru
• Rabies: South Africa with Oman*
• Rabies: USA with India
• Rabies: UK with India
• Rift valley fever: South Africa-France with Yemen
• Viral Encephalopathy and retinopathy: Italy with Tunisia
