ToR: To develop reference material in accordance with OIE requirements, and implement and promote the application of OIE Standards. To store and distribute to national laboratories biological reference products and any other reagents used in the diagnosis and control of the designated pathogens or disease.

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by the OIE?

No

3. Did your laboratory supply standard reference reagents (non OIE-approved) and/or other diagnostic reagents to OIE Member Countries?

No

4. Did your laboratory produce vaccines?

No

5. Did your laboratory supply vaccines to OIE Member Countries?

No
ToR: To develop, standardise and validate, according to OIE Standards, new procedures for diagnosis and control of the designated pathogens or diseases

6. Did your laboratory develop new diagnostic methods validated according to OIE Standards for the designated pathogen or disease?
No

7. Did your laboratory develop new vaccines according to OIE Standards for the designated pathogen or disease?
No

ToR: To provide diagnostic testing facilities, and, where appropriate, scientific and technical advice on disease control measures to OIE Member Countries

8. Did your laboratory carry out diagnostic testing for other OIE Member Countries?
Yes

9. Did your laboratory provide expert advice in technical consultancies on the request of an OIE Member Country?
No

ToR: To carry out and/or coordinate scientific and technical studies in collaboration with other laboratories, centres or organisations

10. Did your laboratory participate in international scientific studies in collaboration with OIE Member Countries other than the own?
Yes

11. Did your Laboratory collect epizootiological data relevant to international disease control?

No

12. Did your laboratory disseminate epizootiological data that had been processed and analysed?

No

13. What method of dissemination of information is most often used by your laboratory?

(Indicate in the appropriate box the number by category)

a) Articles published in peer-reviewed journals: 2

b) International conferences: 0

c) National conferences: 0

d) Other:
(Provide website address or link to appropriate information) 7
I. Posters generated
2. Differences between Vaccination and Medication, June 2013.
3. Reusable year planner for vaccination and deworming schedules, September 2013.

II. Meetings/workshops
Drs. David Wallace, Thireshni Chetty and Arshad Mather attended a progress workshop on the vaccine development work for a combined LSD-RVF-PPR and ASF vaccine. Banff, Canada, 1 - 3 May 2013.

III. Presentations
1. WALLACE D., 2013. Livestock vaccines for emerging farmers against viral diseases in sub-Saharan Africa. LSD-RVF-PPR and ASF vaccine development project meeting, IDRC headquarters, Ottawa, Canada, 8th May 2013.

14. Did your laboratory provide scientific and technical training to laboratory personnel from other OIE Member Countries?

Yes
a) Technical visits:
b) Seminars:
c) Hands-on training courses: 12
d) Internships (>1 month):

16. Is your laboratory accredited by an international accreditation body?
   No

17. Does your laboratory maintain a “biorisk management system” for the pathogen and the disease concerned?
   Yes

   (See Manual of Diagnostic Tests and Vaccines for Terrestrial Animals 2012, Chapter 1.1.3 or Manual of Diagnostic Tests for Aquatic Animals 2012, Chapter 1.1.1)

ToR: To organise and participate in scientific meetings on behalf of the OIE

18. Did your laboratory organise scientific meetings on behalf of the OIE?
   No

19. Did your laboratory participate in scientific meetings on behalf of the OIE?
   No
ToR: To establish and maintain a network with other OIE Reference Laboratories designated for the same pathogen or disease and organise regular inter-laboratory proficiency testing to ensure comparability of results

20. Did your laboratory exchange information with other OIE Reference Laboratories designated for the same pathogen or disease?

Yes

21. Was your laboratory involved in maintaining a network with OIE Reference Laboratories designated for the same pathogen or disease by organising or participating in proficiency tests?

No

22. Did your laboratory collaborate with other OIE Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?

No

ToR: To organise inter-laboratory proficiency testing with laboratories other than OIE Reference Laboratories for the same pathogens and diseases to ensure equivalence of results

23. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than OIE Reference Laboratories for the same disease?

Yes

Note: See Interlaboratory test comparisons in: Laboratory Proficiency Testing at: http://www.oie.int/en/our-scientific-expertise/reference-laboratories/proficiency-testing see point 1.3
