## Outbreak summary: Total outbreaks = 20 (Submitted)

Species	Susceptible	Cases	Deaths	Destroyed	Slaughtered
Birds	39873	5870	2822	7551	0
Eurasian Wigeon		10	10	0	0
Peregrin falcon		1	0	1	0
Mute Swan		150	150	0	0
Common Teal		1	1	0	0
Greylag Goose		1	1	0	0
Greater White-fronted Goose		1	1	0	0
Canada Goose		1	1	0	0
Mallard		3	3	0	0
Common Pochard		2	2	0	0
Great Cormorant		1	1	0	0
Black-headed Gull		2	2	0	0
Tufted Duck		1	1	0	0

## Epidemiology

### Epidemiological comments

First turkey flock (Louth - start date 11/12/2016): disease control programmes have been applied and primary cleansing and disinfection of the infected premises was completed on 30 December 2016. Investigations conducted so far on contact tracings and poultry holdings in the restriction zones have uncovered no evidence of further spread. All control measures set out in the immediate notification have been applied. Epidemiological investigations have been completed. The outbreak is resolved.

Second turkey flock (Louth - start date 15/01/2017): disposal and culling have been completed. Primary cleansing and disinfection has been completed; 3km and 10km zones have been put in place. Epidemiological investigations are on-going. No trade to international partners.

First breeding pheasant flock (Pilling - start date 23/01/2017): culling and disposal of the birds are being arranged. 3km and 10km zones have been put in place. Epidemiological investigations are on-going. No trade to international partners.

Commercial flock of rearing turkeys (Boston - start date 25/01/2017): culling and disposal of the birds are being arranged. 3km and 10km zones have been put in place. Epidemiological investigations are on-going. No trade to international partners.

Second breeding pheasant flock (Pilling - start date 26/01/2017): Pheasants in harem pens for breeding. Clinical signs observed. Pheasants recently moved during the high risk spread period from AIV 2017/04 Pilling site.

Backyard cases in Settle and Llanelli: all control measures set out in the immediate notification have been applied including restriction zones. Epidemiological investigations are ongoing. Updates will be provided in weekly reports if further information becomes available.

Wild bird cases: the case in Abbotsbury is resolved. No more deaths reported.

### Source of the outbreak(s) or origin of infection

- Unknown or inconclusive

## Measures applied

Applied	To be applied
<ul style="list-style-type: none"> <li>• movement control inside the country</li> <li>• disinfection / disinfestation</li> <li>• traceability</li> <li>• stamping out</li> <li>• official destruction of animal products</li> <li>• official disposal of carcasses, by-products and waste</li> <li>• surveillance within containment and/or protection zone</li> <li>• zoning</li> </ul>	<ul style="list-style-type: none"> <li>• no planned control measures</li> </ul>
Animals treated	Vaccination Prohibited
No	Yes

## Future Reporting

The event is continuing. Weekly follow-up reports will be submitted.
