Epidemiology

Epidemiological comments

There has been no new outbreak since the previous report, and this report informs that three months have now passed since the completion of all applicable measures and surveillance including further epidemiological investigations according to the "Guideline for Control of Specific Domestic Animal Infectious Disease Concerning Highly Pathogenic Avian Influenza and Low Pathogenic Avian Influenza" have been carried out in affected and related premises with no indications of further spread of Avian Influenza in Japan.

Therefore, we consider Japan free from Avian Influenza from 15 April 2018.

Japan has submitted the self-declaration report to the OIE and it is going to be published on the OIE website.
