

**Dr Tianna MacInnes**

Canadian Food Inspection Agency  
Canada

As the Senior International Standards Advisor in the Office of the Chief Veterinary Officer, Tianna serves as the primary point of contact for the management of the Government of Canada's contributions to the science based standards for animal welfare and the protection of animal, public and eco-system health published by the World Organization for Animal Health (OIE) and acts as the coordinator for the OIE National Focal Points in Canada.

In this capacity, she conducts outreach with other federal Departments and Agencies, Provinces, academia and regulated stakeholders within Canada to provide an understanding of the standards developed by the OIE; as well works with other OIE Members to build consensus on the standards adopted by the World Assembly.

As a representative for Canada on the Advisory Committee for the World Animal Health and Welfare Fund, she also conducts outreach on the capacity building activities undertaken by the OIE with a view to establishing additional funding to Fund.
