

# OIE Resolutions 26 (2015) & 36 (2016)

## Resolution 26 “Combating AMR and Promoting the Prudent Use of Antimicrobial Agents in Animals”

- OIE Member Countries follow the guidance of the WHO Global Action Plan (GAP) on AMR, developed with the support of the OIE in the spirit of the “One Health” approach, in particular by **developing national action plans...**
- The OIE develops a procedure and standards for data quality for **collecting data annually** from OIE Member Countries on the use of antimicrobial agents in food-producing animals with the aim of creating an OIE global database...

## Resolution 36 “Combating AMR through a One Health Approach: Actions and OIE Strategy”

- The OIE actions to be compiled within the OIE Strategy on AMR include:
  - The establishment and the management of a database for the collection of **data on the use of antimicrobial agents in animals** as well as the development of interpretation indicators

# OIE's ongoing AMR work programme

## 1. Monitoring

- Tripartite database on countries implementation of the GAP and National Action Plans
- Technical Item 1 on Veterinary Services progress and challenges in the implementation of the OIE Strategy

## 2. SCAD Work Programme – Standards, Guidelines and the Global Database

- *ad hoc* Group on AMR (next meeting August 2017)
- global database (denominator to allow comparison)
- update of OIE Standards including definitions and List of Veterinary Important Antimicrobials

## 3. Prudent Use communication campaign to empower veterinarians

## 4. OIE 2<sup>nd</sup> Global Conference on AMR and the Prudent Use of Antimicrobials in 2018 (TBC)

## 5. Global coordination and advocacy through the UNGA IACG

- Ongoing participation in the Tripartite Secretariat
