

WORKING GROUP ON ANIMAL PRODUCTION FOOD SAFETY

- OIE Council reviewed the mandate of the 3 OIE permanent Working Groups, in the context of the 6th Strategic Plan.
- Animal Production Food Safety Working Group was established in 2002 to provide advice to the Director General and the Code Commission, in particular the development and updating of relevant chapters in the *Terrestrial Code*.
- Commitment of its' members and the work of this group has also played an important role in the development of a strong working relationship with Codex and the development of standards by the two organisations' that, when implemented, ensure the production of safe food of animal origin.
- Animal production food safety is now well integrated into the work of the OIE.
- Therefore, propose that the mandate of the Animal Production Food Safety Working Group not be renewed.
- OIE will continue to remain active in animal production food safety through new mechanisms.

ANIMAL WELFARE WORKING GROUP

- Animal Welfare Working Group was established in 2002 to provide advice to the Director General and the Code Commission, in particular the development and updating of relevant chapters in the *Terrestrial and Aquatic Codes*.
- The standards setting work in relation to animal welfare is now well integrated into the work of the OIE, the Terrestrial Animal Health Standards Commission and the Aquatic Animal Health Standards Commission.
- The Director General will continue to develop the OIE Animal Welfare programme according to the OIE Global Animal Welfare Strategy as developed in document 85 SG/14.
- Therefore, propose that the mandate of the Animal Welfare Working Group not be renewed.
