

# OIE Reference Laboratory Reports Activities

## *Activities in 2019*

**This report has been submitted : 2020-02-07 09:12:03**

<b>Name of disease (or topic) for which you are a designated OIE Reference Laboratory:</b>	American foulbrood
<b>Address of laboratory:</b>	Les Templiers 105 route des Chappes CS 20111 06902 Sophia Antipolis FRANCE
<b>Tel.:</b>	+33 (0)4 92 94 37 00
<b>Fax:</b>	+33 (0)4 92 94 37 01
<b>E-mail address:</b>	marie-pierre.chauzat@anses.fr
<b>Website:</b>	<a href="https://www.anses.fr">https://www.anses.fr</a>
<b>Name (including Title) of Head of Laboratory (Responsible Official):</b>	Dr Richard Thiéry
<b>Name (including Title and Position) of OIE Reference Expert:</b>	Dre Marie-Pierre Chauzat head of the European Laboratory for Bee Health
<b>Which of the following defines your laboratory? Check all that apply:</b>	Research

**ToR 1: To use, promote and disseminate diagnostic methods validated according to OIE Standards**

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)

Yes

Diagnostic Test	Indicated in OIE Manual (Yes/No)	Total number of test performed last year	
		Nationally	Internationally
Indirect diagnostic tests			
Direct diagnostic tests			
Identification de Paenibacillus larvae agent de la loque américaine par PCR	y	23	0
Identification de Paenibacillus larvae agent de la loque américaine par PCR temps réel	y	11	0
Isolement et culture de Paenibacillus larvae (agent de la loque américaine)	y	1	0
Recherche de la loque américaine par examen bactérioscopique	y	46	0

**ToR 2: To develop reference material in accordance with OIE requirements, and implement and promote the application of OIE Standards.  
To store and distribute to national laboratories biological reference products and any other reagents used in the diagnosis and control of the designated pathogens or disease.**

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by the OIE?

No

3. Did your laboratory supply standard reference reagents (non OIE-approved) and/or other diagnostic reagents to OIE Member Countries?

Yes

Type of reagent available	Related diagnostic test	Produced/ provide	Amount supplied nationally (ml, mg)	Amount supplied internationally (ml, mg)	No. of recipient OIE Member Countries	Region of recipients
Culture bactérienne	P. larvae	4	1	3	3	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input checked="" type="checkbox"/> Europe <input type="checkbox"/> Middle East
PCR + control	P. larvae	7	3	4		<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input checked="" type="checkbox"/> Europe <input type="checkbox"/> Middle East
Témoin positif d'extraction	P. larvae	2	2	0	0	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East

4. Did your laboratory produce vaccines?

No

5. Did your laboratory supply vaccines to OIE Member Countries?

No

***ToR 3: To develop, standardise and validate, according to OIE Standards, new procedures for diagnosis and control of the designated pathogens or diseases***

6. Did your laboratory develop new diagnostic methods validated according to OIE Standards for the designated pathogen or disease?

No

7. Did your laboratory develop new vaccines according to OIE Standards for the designated pathogen or disease?

No

**ToR 4: To provide diagnostic testing facilities, and, where appropriate, scientific and technical advice on disease control measures to OIE Member Countries**

8. Did your laboratory carry out diagnostic testing for other OIE Member Countries?

No

9. Did your laboratory provide expert advice in technical consultancies on the request of an OIE Member Country?

No

**ToR 5: To carry out and/or coordinate scientific and technical studies in collaboration with other laboratories, centres or organisations**

10. Did your laboratory participate in international scientific studies in collaboration with OIE Member Countries other than the own?

Yes

Title of the study	Duration	Purpose of the study	Partners (Institutions)	OIE Member Countries involved other than your country
B Practice	5 ans	test performance study	5 EU MS	SPAIN

**ToR 6: To collect, process, analyse, publish and disseminate epizootiological data relevant to the designated pathogens or diseases**

11. Did your Laboratory collect epizootiological data relevant to international disease control?

No

If the answer is no, please provide a brief explanation of the situation:
The disease is well known and present in most of OIE countries

12. Did your laboratory disseminate epizootiological data that had been processed and analysed?

No

If the answer is no, please provide a brief explanation of the situation:
The disease is well known and present in most of OIE countries

**13. What method of dissemination of information is most often used by your laboratory?  
(Indicate in the appropriate box the number by category)**

a) Articles published in peer-reviewed journals: 0

b) International conferences: 1

Riviere, M. P., and L. Espinosa. 2019. "Criteria for the inclusion of diseases, infections and infestations in the OIE list." 46th APIMONDIA International Apicultural Congress, Montreal, Canada, 8-12 September 2019 (Communication orale).

c) National conferences: 0

d) Other:

(Provide website address or link to appropriate information) 2

Paris, L., C. Gastaldi, J. C. Thomarat, S. Groncin, and S. Franco. 2019. "Rapport de l'essai inter-laboratoires d'aptitude PLMICRO19FR: Recherche de Paenibacillus larvae, agent de la loque américaine, par microscopie dans du broyat de larves d'abeilles." Rapport d'essais inter-laboratoires du LNR Santé des abeilles. 17 pages.

Paris, L., J. C. Thomarat, C. Gastaldi, S. Groncin, and S. Franco. 2019. "Proficiency test report PLMICRO19: Identification of Paenibacillus larvae, the American foulbrood agent, by microscopy in crushed honeybee larvae." Rapport d'essais inter-laboratoires du LRUE pour la santé des abeilles. 17 pages

**ToR 7: To provide scientific and technical training for personnel from OIE Member Countries**

**To recommend the prescribed and alternative tests or vaccines as OIE Standards**

14. Did your laboratory provide scientific and technical training to laboratory personnel from other OIE Member Countries?

No

**ToR 8: To maintain a system of quality assurance, biosafety and biosecurity relevant for the pathogen and the disease concerned**

15. Does your laboratory have a Quality Management System?

Yes

Quality management system adopted	Certificate scan (PDF, JPG, PNG format)
ISO 17025:2005	Attestation D'accréditation 2018-2022.pdf

16. Is your quality management system accredited?

Yes

Test for which your laboratory is accredited	Accreditation body
Identification de Paenibacillus larvae agent de la loque américaine par PCR	COFRAC
Isolement et culture de Paenibacillus larvae (agent de la loque américaine)	COFRAC
Recherche de la loque américaine par examen bactérioscopique	COFRAC

17. Does your laboratory maintain a “biorisk management system” for the pathogen and the disease concerned?

No

(See Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, Chapter 1.1.4)

### **ToR 9: To organise and participate in scientific meetings on behalf of the OIE**

18. Did your laboratory organise scientific meetings on behalf of the OIE?

Yes

National/ International	Title of event	Co-organiser	Date (mm/yy)	Location	No. Participants
International	OIE Symposium on New Threats and Novel Treatments to Honey Bees	Apimondia	11 September 2019	Montreal Canada	70

19. Did your laboratory participate in scientific meetings on behalf of the OIE?

No

### **ToR 10: To establish and maintain a network with other OIE Reference Laboratories designated for the same pathogen or disease and organise regular inter-laboratory proficiency testing to ensure comparability of results**

20. Did your laboratory exchange information with other OIE Reference Laboratories designated for the same pathogen or disease?

No

21. Was your laboratory involved in maintaining a network with OIE Reference Laboratories designated for the same pathogen or disease by organising or participating in proficiency tests?

No

22. Did your laboratory collaborate with other OIE Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?

No

***ToR 11: To organise inter-laboratory proficiency testing with laboratories other than OIE Reference Laboratories for the same pathogens and diseases to ensure equivalence of results***

23. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than OIE Reference Laboratories for the same disease?

No

*Note: See Interlaboratory test comparisons in: Laboratory Proficiency Testing at: <http://www.oie.int/en/our-scientific-expertise/reference-laboratories/proficiency-testing> see point 1.3*

***ToR 12: To place expert consultants at the disposal of the OIE***

24. Did your laboratory place expert consultants at the disposal of the OIE?

No

25. Additional comments regarding your report:
