

OIE Reference Laboratory Reports Activities

Activities in 2020

This report has been submitted : 2021-01-08 11:36:30

Name of disease (or topic) for which you are a designated OIE Reference Laboratory:	Small hive beetle
Address of laboratory:	National Reference Laboratory for Bee Diseases Friedrich-Loeffler-Institut Federal Research Institute for Animal Health Institute of Infectology Südufer 10 17493 Greifswald - Insel Riems GERMANY
Tel.:	+49-38351 7 1246
Fax:	+49-38351 7 1226
E-mail address:	marc.schaefer@fli.de
Website:	https://www.fli.de/en/institutes/institute-of-infectology-imed/reference-laboratories/oie-and-nrls-for-bee-diseases/
Name (including Title) of Head of Laboratory (Responsible Official):	Dr. Marc O. Schäfer
Name (including Title and Position) of OIE Reference Expert:	Dr. phil. nat. Marc O. Schäfer, head of the NRL for bee diseases
Which of the following defines your laboratory? Check all that apply:	Governmental

ToR 1: To use, promote and disseminate diagnostic methods validated according to OIE Standards

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)

Yes

Diagnostic Test	Indicated in OIE Manual (Yes/No)	Total number of test performed last year	
		Nationally	Internationally
Indirect diagnostic tests			
PCR on hive debris	no	1	
PCR on honey bees	no	1	
Direct diagnostic tests			
visual identification	yes	5	
identification by PCR	yes	2	

**ToR 2: To develop reference material in accordance with OIE requirements, and implement and promote the application of OIE Standards.
To store and distribute to national laboratories biological reference products and any other reagents used in the diagnosis and control of the designated pathogens or disease.**

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by the OIE?

No

3. Did your laboratory supply standard reference reagents (non OIE-approved) and/or other diagnostic reagents to OIE Member Countries?

Yes

Type of reagent available	Related diagnostic test	Produced/ provide	Amount supplied nationally (ml, mg)	Amount supplied internationally (ml, mg)	No. of recipient OIE Member Countries	Region of recipients
DNA of <i>Aethina tumida</i>	Identification by PCR	in-house		1 tube, 100µl / 20µg	1	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input checked="" type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East

4. Did your laboratory produce vaccines?

No

5. Did your laboratory supply vaccines to OIE Member Countries?

No

ToR 3: To develop, standardise and validate, according to OIE Standards, new procedures for diagnosis and control of the designated pathogens or diseases

6. Did your laboratory develop new diagnostic methods validated according to OIE Standards for the designated pathogen or disease?

No

7. Did your laboratory develop new vaccines according to OIE Standards for the designated pathogen or disease?

No

ToR 4: To provide diagnostic testing facilities, and, where appropriate, scientific and technical advice on disease control measures to OIE Member Countries

8. Did your laboratory carry out diagnostic testing for other OIE Member Countries?

No

9. Did your laboratory provide expert advice in technical consultancies on the request of an OIE Member Country?

No

ToR 5: To carry out and/or coordinate scientific and technical studies in collaboration with other laboratories, centres or organisations

10. Did your laboratory participate in international scientific studies in collaboration with OIE Member Countries other than the own?

Yes

Title of the study	Duration	Purpose of the study	Partners (Institutions)	OIE Member Countries involved other than your country
B-GOOD - Giving beekeeping guidance by computational-assisted decision making	June 2019 - May 2023	B-GOOD has the overall goal to provide guidance to beekeepers and help them make better and more informed decisions	Universiteit Gent, Stichting Wageningen Research, BeeSources di Raffaele Dall'Olio, Pensoft Publishers, Institut National de la Recherche Agronomique, Martin-Luther-Universität Halle-Wittenberg, Universitatea de Stiinte Agricole si Medicina Veterinara Cluj Napoca, Aarhus Universitet, Universidade de Combra, The Nottingham Trent University, Universität Bern, Stichting BEEP, Suomen Mehiläishoitajain liitto SML ry, Uniwersytet Jagiellonski, Sciensano, SCIPROM Sari	BELGIUM BULGARIA FINLAND FRANCE ITALY POLAND PORTUGAL ROMANIA SWITZERLAND THE NETHERLANDS UNITED KINGDOM

ToR 6: To collect, process, analyse, publish and disseminate epizootiological data relevant to the designated pathogens or diseases

11. Did your Laboratory collect epizootiological data relevant to international disease control?

No

If the answer is no, please provide a brief explanation of the situation:
the disease is absent from Germany

12. Did your laboratory disseminate epizootiological data that had been processed and analysed?

No

If the answer is no, please provide a brief explanation of the situation:
the disease is absent from Germany

**13. What method of dissemination of information is most often used by your laboratory?
(Indicate in the appropriate box the number by category)**

a) Articles published in peer-reviewed journals: 4

Journal of Apicultural Research, 2020: Controlling small hive beetles, *Aethina tumida*, in western honey bee (*Apis mellifera*) colonies by trapping wandering beetle larvae; Karsten Stief, Bram Cornelissen, James D. Ellis, Marc O. Schäfer

Veterinary Sciences, 2020: Overt infection with chronic bee paralysis virus (CBPV) in two honey bee colonies; Julia Dittes, Marc O. Schäfer, Heike Aupperle-Lellbach, Christoph K. W. Mülling, Ilka U. Emmerich

Veterinary Sciences, 2020: Veterinary Diagnostic Approach of Common Virus Diseases in Adult Honeybees; Julia Dittes, Heike Aupperle-Lellbach, Marc O. Schäfer, Christoph K. W. Mülling, Ilka U. Emmerich

Berliner und Münchener Tierärztliche Wochenschrift, 2020: Ringversuch zum Nachweis von *Paenibacillus* larvae, dem Erreger der Amerikanischen Faulbrut; Marc O. Schäfer, Werner von der Ohe, Hannes Beims, Susanne Fischer

b) International conferences: 2

COLOSS eConference, 2020: State of the art: small hive beetle biology and control; Peter Neumann, Bram Cornelissen, Marc O. Schäfer

Annual Workshop of the EU reference laboratory for bee health and the network of national reference laboratories, remote meeting - Skype conference, 2020: Activities of the NRL and current honeybee health status in Germany; Marc O. Schäfer

c) National conferences: 1

10. Leipziger Tierärztekongress, Leipzig, Germany, 2020: Vorbereitet auf die Invasion? Neue Bekämpfungsstrategien gegen den Kleinen Beutenkäfer; Marc O. Schäfer

d) Other:

(Provide website address or link to appropriate information) 1

ATF-Modulreihe Bienen - Modul 3, Gießen, Germany, 2020: Der Kleine Beutenkäfer: Die aktuelle Tierseuchensituation in Europa - Auswirkungen auf die Imkerei; Marc O. Schäfer

ToR 7: To provide scientific and technical training for personnel from OIE Member Countries

To recommend the prescribed and alternative tests or vaccines as OIE Standards

14. Did your laboratory provide scientific and technical training to laboratory personnel from other OIE Member Countries?

No

ToR 8: To maintain a system of quality assurance, biosafety and biosecurity relevant for the pathogen and the disease concerned

15. Does your laboratory have a Quality Management System?

Yes

Quality management system adopted	Certificate scan (PDF, JPG, PNG format)
DIN EN ISO/IEC 17025:2018	Akkreditierungsurkunde_2019.pdf

16. Is your quality management system accredited?

Yes

Test for which your laboratory is accredited	Accreditation body
Identification of <i>Aethina tumida</i> (visual)	Deutsche Akkreditierungsstelle GmbH (DAkkS)
Identification of <i>Aethina tumida</i> by PCR	Deutsche Akkreditierungsstelle GmbH (DAkkS)

17. Does your laboratory maintain a “biorisk management system” for the pathogen and the disease concerned?

Yes

(See *Manual of Diagnostic Tests and Vaccines for Terrestrial Animals*, Chapter 1.1.4)

ToR 9: To organise and participate in scientific meetings on behalf of the OIE

18. Did your laboratory organise scientific meetings on behalf of the OIE?

No

19. Did your laboratory participate in scientific meetings on behalf of the OIE?

Yes

Title of event	Date (mm/yy)	Location	Role (speaker, presenting poster, short communications)	Title of the work presented
10. Leipziger Tierärztekongress	01/2020	Leipzig, Germany	Speaker	Vorbereitet auf die Invasion? Neue Bekämpfungsstrategien gegen den Kleinen Beutenkäfer
COLOSS SHB Task Force	02/2020	Lamezia Terme, Italy	Speaker	Alternative ideas for treatment of infested soil
COLOSS eConference	10/2020	online	Co-speaker	State of the art: small hive beetle biology and control

ToR 10: To establish and maintain a network with other OIE Reference Laboratories designated for the same pathogen or disease and organise regular inter-laboratory proficiency testing to ensure comparability of results

20. Did your laboratory exchange information with other OIE Reference Laboratories designated for the same pathogen or disease?

No

21. Was your laboratory involved in maintaining a network with OIE Reference Laboratories designated for the same pathogen or disease by organising or participating in proficiency tests?

Yes

Purpose of the proficiency tests: ¹	Role of your Reference Laboratory (organiser/ participant)	No. participants	Participating OIE Ref. Labs/ organising OIE Ref. Lab.
Identification of <i>Aethina tumida</i>	participant	?	organiser: ANSES EURL for honey bee health

¹ validation of a diagnostic protocol: specify the test; quality control of vaccines: specify the vaccine type, etc.

22. Did your laboratory collaborate with other OIE Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?

No

ToR 11: To organise inter-laboratory proficiency testing with laboratories other than OIE Reference Laboratories for the same pathogens and diseases to ensure equivalence of results

23. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than OIE Reference Laboratories for the same disease?

No

Note: See Interlaboratory test comparisons in: Laboratory Proficiency Testing at: <http://www.oie.int/en/our-scientific-expertise/reference-laboratories/proficiency-testing> see point 1.3

ToR 12: To place expert consultants at the disposal of the OIE

24. Did your laboratory place expert consultants at the disposal of the OIE?

No

25. Additional comments regarding your report:
