

OIE Reference Laboratory Reports Activities

Activities in 2020

This report has been submitted : 2021-01-20 06:32:29

Name of disease (or topic) for which you are a designated OIE Reference Laboratory:	Foot and mouth disease
Address of laboratory:	600901 Yur'evets Vladimir RUSSIA
Tel.:	+7-4922 26 06 14
Fax:	+7-4922 26 38 77
E-mail address:	mail@arriah.ru
Website:	www.arriah.ru
Name (including Title) of Head of Laboratory (Responsible Official):	S.N. Fomina Head of Reference Laboratory for FMD diagnosis. Candidate of Science (Veterinary Medicine) A.V. Scherbakov Head of Reference Laboratory for Highly Dengerous Deasises.Candidate of Science (Biology)
Name (including Title and Position) of OIE Reference Expert:	Valery Zakharov, ARRIAH expert, Doctor of Science (Veterinary Medicine), professor
Which of the following defines your laboratory? Check all that apply:	Governmental

ToR 1: To use, promote and disseminate diagnostic methods validated according to OIE Standards

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)

Yes

Diagnostic Test	Indicated in OIE Manual (Yes/No)	Total number of test performed last year	
		Nationally	Internationally
Indirect diagnostic tests		Nationally	Internationally
Liquid phase blocking indirect ELISA (LPB ELISA)	yes	163707	229
Virus neutralization test	yes	942	512
Indirect ELISA (ELISA-NSP)	yes	72602	5
Vaccine matching in VNT	yes	14	0
Direct diagnostic tests		Nationally	Internationally
Virus isolation in cell culture	yes	188	0
Indirect double sandwich ELISA	yes	174	0
CFT	yes	126	0
Real-time RT-PCR, 3D gene	yes	1409	0
Real-time RT-PCR, 5'HTO gene	yes	1409	0
RT-PCR, VP1 gene	yes	6 (type O)	0
VP1 gene sequencing	yes	2	0

**ToR 2: To develop reference material in accordance with OIE requirements, and implement and promote the application of OIE Standards.
To store and distribute to national laboratories biological reference products and any other reagents used in the diagnosis and control of the designated pathogens**

or disease.

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by the OIE?

No

3. Did your laboratory supply standard reference reagents (non OIE-approved) and/or other diagnostic reagents to OIE Member Countries?

Yes

Type of reagent available	Related diagnostic test	Produced/ provide	Amount supplied nationally (ml, mg)	Amount supplied internationally (ml, mg)	No. of recipient OIE Member Countries	Region of recipients
Kit for detection of FMD antibodies in animal sera by ELISA	LPB ELISA	2582 kits	24	2	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input checked="" type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East
Kit for FMDV antigen detection by ELISA	Ag detection ELISA	28 kits	2	1	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input checked="" type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East
Test system for detecting FMD virus RNA by polymerase chain reaction in real time "FMD RT-PCR-RT"	FMD RT-PCR-RT	16	0	0	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East

4. Did your laboratory produce vaccines?

Yes

5. Did your laboratory supply vaccines to OIE Member Countries?

Yes

Vaccine name	Amount supplied nationally (ml, mg) (including for own use)	Amount supplied to other countries (ml, mg)	Name of recipient OIE Member Countries
Sorbat, mono- and polyvalent FMD vaccine (based on the virus grown in BHK-21 cells)	contract	contract	AFGHANISTAN ARMENIA BANGLADESH EGYPT GEORGIA IRAN JORDAN KAZAKHSTAN KOREA (REP. OF) KUWAIT KYRGYZSTAN LEBANON MOROCCO OMAN PAKISTAN SAUDI ARABIA
Emulsion ARRIAH-VAC, mono- and polyvalent FMD vaccine (based on the virus grown in BHK-21 cells)	contract	contract	CHINESE TAIPEI IRAQ KAZAKHSTAN KOREA (REP. OF) MONGOLIA PAKISTAN

ToR 3: To develop, standardise and validate, according to OIE Standards, new procedures for diagnosis and control of the designated pathogens or diseases

6. Did your laboratory develop new diagnostic methods validated according to OIE Standards for the designated pathogen or disease?

Yes

7. Did your laboratory develop new vaccines according to OIE Standards for the designated pathogen or disease?

Yes

Name of the new test or diagnostic method or vaccine developed	Description and References (Publication, website, etc.)
Spectrometric technique for determination of foot-and-mouth disease (FMD) virus 146S particle concentration in non-inactivated vaccine raw materials based on estimates of viral RNA molecules after virion immune-capture	Spectrometric technique for determination of foot-and-mouth disease (FMD) virus 146S particle concentration in non-inactivated vaccine raw materials based on estimates of viral RNA molecules after virion immune-capture: patent 2712769 Russian Federation, MPK G01N 33/58 / V.A. Starikov, D.A. Lozovoy, D.V. Mikhailishin [et al.]; FGBI ARRIAH. - Applied 27.05.2019; published 31.01.2020
ELISA test system for detection of antibodies to FMDV non-structural proteins in cattle and small ruminant sera	Report on Governmental Programme No.081-00008-20-00 of 01.01.2020. Development of ELISA test system for detection of antibodies to FMDV non-structural proteins in cattle and small ruminant sera, Reference No. AAAA-A20-120022190011-3 in the Common Governmental System for Recording Research, Development and Technological Works for Civil Purposes
Inactivated vaccine for early protection against type A foot-and-mouth disease (FMD)	Report on Governmental Contract No. 10/20 of 2 March 2020. Research and development works for development of new protective product based on circulating newly recovered isolates of highly dangerous and foreign animal infection agents and its testing (anti-FMD inactivated vaccine for early protection against type A FMD); Reference No. AAAA-A20-120042390026-3 in Common Governmental System for Recording Research , Development and Technological Works for Civil Purposes

ToR 4: To provide diagnostic testing facilities, and, where appropriate, scientific and technical advice on disease control measures to OIE Member Countries

8. Did your laboratory carry out diagnostic testing for other OIE Member Countries?

Yes

Name of OIE Member Country seeking assistance	Date (month)	No. samples received for provision of diagnostic support	No. samples received for provision of confirmatory diagnoses
RUSSIA	January-November	84	0
KYRGYZSTAN	November	0	5

9. Did your laboratory provide expert advice in technical consultancies on the request of an OIE Member Country?

Yes

Name of the OIE Member Country receiving a technical consultancy	Purpose	How the advice was provided
UZBEKISTAN	Technical consultations on regionalization and FMD freedom recognition	Arrangement of activities on regionalization and official FMD freedom recognition according to the OIE recommendations

ToR 5: To carry out and/or coordinate scientific and technical studies in collaboration with other laboratories, centres or organisations

10. Did your laboratory participate in international scientific studies in collaboration with OIE Member Countries other than the own?

Yes

Title of the study	Duration	Purpose of the study	Partners (Institutions)	OIE Member Countries involved other than your country
Assessment of immunity level in animals vaccinated against FMD and detection of possible virus circulation in zones where vaccination is practiced (at the stage of signing)	2020-2022	Eradication of highly dangerous diseases including FMD in Mongolian livestock	State Central Veterinary Laboratory, Ulan Bator	MONGOLIA
Agreement on crossborder trade and TADs risk reduction between China, Mongolia and Russia	Not defined	Interactions in case of emergencies associated with dangerous animal diseases including FMD	Veterinary Service Department of the Ministry of Agriculture, PRC; Veterinary and Animal Breeding Agency, Governmental Executive Authority, Mongolia	CHINA (PEOPLE'S REP. OF) MONGOLIA
Cooperation on the prevention and control of foot and mouth disease and other transboundary animal diseases between the countries of the Caucasus, Russia and Iran (GF-TADs)	Not defined	Exchange of information on outbreaks of diseases, vaccination of animals	EuFMD	ARMENIA AZERBAIJAN GEORGIA IRAN TURKEY
Joint CIS measures for FMD prevention and control	to 2025	FMD prevention and control		ARMENIA AZERBAIJAN BELARUS KAZAKHSTAN KYRGYZSTAN MOLDOVA TAJIKISTAN TURKMENISTAN UKRAINE UZBEKISTAN

ToR 6: To collect, process, analyse, publish and disseminate epizootiological data

relevant to the designated pathogens or diseases

11. Did your Laboratory collect epizootiological data relevant to international disease control?

Yes

If the answer is yes, please provide details of the data collected:
The information is maintained online on the Rosselkhoznadzor website in the "Epizootic Situation" section, subsections "Russia" and Foreign Countries " http://www.fsvps.ru/fsvps/ya/ , http://www.fsvps.ru/fsvps/iac/foreign.html

12. Did your laboratory disseminate epizootiological data that had been processed and analysed?

Yes

If the answer is yes, please provide details of the data collected:
The information is maintained online on the Rosselkhoznadzor website in the "Epizootic Situation" section, subsections "Russia" and Foreign Countries " http://www.fsvps.ru/fsvps/ya/ , http://www.fsvps.ru/fsvps/iac/foreign.html

**13. What method of dissemination of information is most often used by your laboratory?
(Indicate in the appropriate box the number by category)**

a) Articles published in peer-reviewed journals: 4

1. Validation of spectrometric tool for determination of 146S FMDV concentration in vaccine raw material during determining amount of viral RNA/ M.I. Doronin, M.N. Guseva, D.V. Mikhailishin, et al. // Veterinariya. - 2020. - No. 6. - P. 55-61
2. Studies on development of early immunity against type O FMD in naturally susceptible animals/ D.V. Mikhailishin, D.A. Lozovoy, V.A. Starikov et al. // Veterinary Science Today. - 2020. - No. 2 (33). - P. 94-101
3. Special aspects of foot-and-mouth disease control and prevention in beef cattle/ O.Yu. Chernykh, A.V. Mischenko, V.A. Mischenko et al. // Veterinariya Kubani. - 2020. - No. 4. - P. 5-9
4. Study of the immunogenic activity of emulsion FMD vaccine from strain A/ARRIAH/2015 (A/ASIA/G-VII)/ Yu.S. Yelkina, D.V. Mikhailishin, V.A. Starikov et al. // Veterinaria. - 2020. - v.No. 11. - P. 19-24

b) International conferences: 1

- 1 Kremenchugskaya S.R. Results of serological evaluation of animal immune status following vaccination against FMD in the Far Eastern regions of the Russian Federation in 2015-2019 // Scientific Support for Animal Husbandry in Siberia. Proceeding of the IV International Scientific and Practical Conference (Krasnoyarsk, May 14-15, 2020). - 2020. - P. 434-437

c) National conferences: 0

d) Other:

(Provide website address or link to appropriate information) 4

1. Makeyeva Yu. ARRIAH researchers developed a unique test-kit for FMD diagnosis /Yu. Makeyeva. // Veterinaria i Zhizn, 2020. v.No. 2.-P.11
2. Mikhailishin D.V. Anti-FMD Complex /D.V. Mikhailishin// Agrarnik', 2020. v.No. 8 (112).- P.36-37
3. Free from FMD // Newsletter of RF MoA, 2020. v.No. 7.-P.40-41
- 4.<http://www.fsvps.ru/fsvps/iac>

ToR 7: To provide scientific and technical training for personnel from OIE Member Countries**To recommend the prescribed and alternative tests or vaccines as OIE Standards**

14. Did your laboratory provide scientific and technical training to laboratory personnel from other OIE Member Countries?

Yes

- a) Technical visits: 3
 b) Seminars: 3
 c) Hands-on training courses: 4
 d) Internships (>1 month): 0

Type of technical training provided (a, b, c or d)	Country of origin of the expert(s) provided with training	No. participants from the corresponding country
a	Korea (Republic of)	13
a	Serbia	1
a	Morocco	7
b	Uzbekistan	30
b	Armenia, Azerbaijan, Belarus, Georgia, Kyrgyzstan, Russia	50
b	Russia	142
c	Russia	11

ToR 8: To maintain a system of quality assurance, biosafety and biosecurity relevant for the pathogen and the disease concerned

15. Does your laboratory have a Quality Management System?

Yes

Quality management system adopted	Certificate scan (PDF, JPG, PNG format)
ISO 9001:2015	Сертификат СМК 2019-2022.pdf
ISO 17025	аттестат_ЛДЦ.pdf

16. Is your quality management system accredited?

Yes

Test for which your laboratory is accredited	Accreditation body
virus isolation	National accreditation system "Federal accreditation service" (Rosaccreditation)
FMDV antigen detection ELISA	National accreditation system "Federal accreditation service" (Rosaccreditation)
FMDV antigen detection CFT	National accreditation system "Federal accreditation service" (Rosaccreditation)
RNA detection in RT-PCR	National accreditation system "Federal accreditation service" (Rosaccreditation)
FMD antibody detection LPB ELISA	National accreditation system "Federal accreditation service" (Rosaccreditation)
FMD NSP antibody detection ELISA	National accreditation system "Federal accreditation service" (Rosaccreditation)

17. Does your laboratory maintain a "biorisk management system" for the pathogen and the disease concerned?

Yes

(See Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, Chapter 1.1.4)

ToR 9: To organise and participate in scientific meetings on behalf of the OIE

18. Did your laboratory organise scientific meetings on behalf of the OIE?

No

19. Did your laboratory participate in scientific meetings on behalf of the OIE?

Yes

Title of event	Date (mm/yy)	Location	Role (speaker, presenting poster, short communications)	Title of the work presented
XII International scientific and practical conference "Innovative processes in agriculture"	April 23-25 , 2020	RUDN University, Moscow, Russia	speaker	Karyological and cytometric studies of transplantable suspension subline cells from the baby hamster kidney BHK-21/ARRIAH
15th annual meeting of the OIE/ FAO Reference laboratories for FMD	December 1-2, 2020	videoconference	speaker	Report of Regional laboratory for FMD (FGBI ARRIAH) for 2020

ToR 10: To establish and maintain a network with other OIE Reference Laboratories designated for the same pathogen or disease and organise regular inter-laboratory proficiency testing to ensure comparability of results

20. Did your laboratory exchange information with other OIE Reference Laboratories designated for the same pathogen or disease?

Yes

21. Was your laboratory involved in maintaining a network with OIE Reference Laboratories designated for the same pathogen or disease by organising or participating in proficiency tests?

Yes

Purpose of the proficiency tests: ¹	Role of your Reference Laboratory (organiser/ participant)	No. participants	Participating OIE Ref. Labs/ organising OIE Ref. Lab.
specify the tests for FMD	participant	6	FAO/OIE World Reference Laboratory for FMD (Pirbright, UK)

¹ validation of a diagnostic protocol: specify the test; quality control of vaccines: specify the vaccine type, etc.

22. Did your laboratory collaborate with other OIE Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?

Yes

Title of the project or contract	Scope	Name(s) of relevant OIE Reference Laboratories
Molecular epidemiology of FMD outbreaks	Exchange genomic sequences of FMDV, according to Memorandum of understanding for OIE/FAO Network for FMD Reference Laboratories	FMD WRL (Pirbright, UK)

ToR 11: To organise inter-laboratory proficiency testing with laboratories other than OIE Reference Laboratories for the same pathogens and diseases to ensure equivalence of results

23. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than OIE Reference Laboratories for the same disease?

Yes

Note: See Interlaboratory test comparisons in: Laboratory Proficiency Testing at: <http://www.oie.int/en/our-scientific-expertise/reference-laboratories/proficiency-testing> see point 1.3

Purpose for inter-laboratory test comparisons ¹	No. participating laboratories	Region(s) of participating OIE Member Countries
Harmonization of methods for diagnostic FMD	5	<input type="checkbox"/> Africa <input type="checkbox"/> Americas <input checked="" type="checkbox"/> Asia and Pacific <input checked="" type="checkbox"/> Europe <input type="checkbox"/> Middle East

ToR 12: To place expert consultants at the disposal of the OIE

24. Did your laboratory place expert consultants at the disposal of the OIE?

No

25. Additional comments regarding your report:
