Epidemiology

Epidemiological comments

The USDA Animal and Plant Health Inspection Service (APHIS), in conjunction with State Departments of Agriculture and Wildlife, are continuing to conduct a comprehensive epidemiological investigation and enhanced surveillance in response to the HPAI H5N8 wild bird related event. Update on the Oregon backyard premises as of 24 December 2014:

- Depopulation of the backyard birds on Sunday, 21 December 2014.
- Cleaning and Disinfection (C&D) of the backyard premises 23 December 2014.

The HPAI H5N8 virus has NOT been found in commercial poultry anywhere in the United States.

Source of the outbreak(s) or origin of infection

- Contact with wild species

Measures applied
