Regional Veterinary and Food Administration	Number of outbreaks	Municipality		Unit Type	Location	Latitude	Longitude	Start Date	End Date:
East-other report - submitted	-	Næstved		Farm	Fuglebjerg	55.31	11.5799	25/06/2019	01/07/2019
Species	Measuring units	Susceptible	Cases	Deaths	Killed and disposed of	Slaughtered			
Birds	Animals	5193	...	...	5193	0			
Affected Population	Low pathogenic avian influenza H5 was detected 28 June 2019 in a holding with mallards near the village Fuglebjerg in the municipality of Næstved. The population of the holding consists of 5,193 mallards. The farm breeds mallards for restocking supplies of game. There had not been clinical signs of the disease among the animals. Mallards were tested in accordance with the Danish surveillance programme for avian influenza in poultry and game birds. All the susceptible animals at the infected holding were killed and destroyed on 30 June 2019. The cleaning and disinfection of the holding was approved by the Danish Veterinary and Food Administration on 1 July 2019.								

### Outbreak summary: Total outbreaks = 1 (Submitted)

Species	Susceptible	Cases	Deaths	Killed and disposed of	Slaughtered
Birds	5193			5193	0

### Epidemiology

#### Epidemiological comments

The Danish Veterinary and Food Administration has implemented the control measures in accordance with the European Union's Council Directive 2005/94/EC.

A restricted zone of 1 km around the holding was established, which was lifted on 23 July 2019.

No new outbreaks of avian influenza has been detected in Denmark since 28 June 2019.

On 1 October 2019, Denmark submitted to the OIE a self-declaration and requested the publication of its claim of recovery of freedom from Avian Influenza.

#### Source of the outbreak(s) or origin of infection

• Unknown or inconclusive

### Measures applied

Applied	To be applied
<ul style="list-style-type: none"> <li>• movement control inside the country</li> <li>• traceability</li> <li>• quarantine</li> <li>• official disposal of carcasses, by-products and waste</li> <li>• stamping out</li> <li>• zoning</li> <li>• disinfection</li> </ul>	<ul style="list-style-type: none"> <li>• no planned control measures</li> </ul>
Animals treated	Vaccination Prohibited
No	Yes

### Future Reporting

The report and all its outbreaks have been resolved.
